

A photograph of two men in an office environment. The man in the foreground is smiling and looking towards the right. The man in the background is also smiling and looking towards the camera. The office has modern lighting and a blurred background.

eXplore your potential

The **EDITEL Group** is a leading provider of IT/EDI services that specializes in supply chain management. We employ more than 150 staff members at our headquarter in Vienna and at our subsidiaries in Prague, Bratislava, Budapest, Zagreb and Krakow.

We are looking to hire a

full-time Linux System Engineer/Devops (m/f)

Your responsibilities

In this challenging position, you will be part of a highly qualified infrastructure team that is in charge of running and optimizing our server infrastructure and ensuring that our applications run smoothly.

- › Managing complex Linux systems
- › Further development of infrastructure concepts as well as HA strategies
- › Close cooperation with development (agile)
- › Deployment and operation of high-availability applications (Java, Oracle)
- › Planning, implementing and testing of backup/recovery and HA strategies
- › Analysis, documentation and troubleshooting

Your background

- › University degree/degree from a University of Applied Sciences/graduate from a higher technical education institute as well as several years of professional experience
- › Solid experience working with Linux infrastructure and JAVA applications as well as security technologies
- › Good proficiency in English and good problem-solving skills
- › Expertise in the following areas is a plus:
 - o OS & databases: VMWare, Linux Redhat, Docker, Oracle, MongoDB
 - o Message brokers: ActiveMQ
 - o CI/deployment/orchestration: Salt, Kubernetes, Openshift, etc.
 - o Other: Blockchain, Nagios, SOAP WS, Rest, JIRA, Confluence
- › Experience in working with high-load systems and performance optimization is an advantage
- › Willingness to engage in further education and to work in a team

Your future working environment

We offer a varied and international working environment at the crossroad between logistics and Electronic Data Interchange (EDI) where dedicated employees can reach their full potential and take their career to the next level. To learn more about the employer EDITEL, please visit <https://www.editel.eu/careers-at-editel/>

What we offer

We offer a competitive salary depending on qualification and experience. You can work either in one of our offices (Vienna, Prague, Bratislava, Budapest, Zagreb, Krakow) or in your home-office (remote), with flexible working time. We also provide budget for trainings, meal vouchers, contribution to sport's activities and much more.
